EDUCATION

B.Tech — Computer Science & Engineering (Cybersecurity, IEP)
Parul University / Quick Heal Academy • 2023 — 2027
CGPA: 8.22 / 10 • Current SGPA: 9.22

Relevant coursework
Cryptography · Network Security · Cloud Security · Digital Forensics · Vulnerability Assessment and Penetration Testing · Operating Systems · Cyber Laws

RESEARCH INTERESTS

Privacy-preserving systems · Trustworthy AI · Digital forensics · SIEM-based behavioural threat detection · Secure cloud architectures

TECHNICAL SKILLS

Python · SQL / MySQL · IBM QRadar · Burp Suite · Metasploit · Nessus · Autopsy · FTK Imager · Sleuth Kit · AWS (IAM, WAF, CloudWatch) · Linux · Git

PROJECTS

Brainsparkz — Secure E-Learning Platform
Team Lead • Flask · MySQL · HTML · CSS

- Developed a secure e-learning platform with user authentication and role-based access features.
- Implemented backend logic using Flask and MySQL with a responsive HTML/CSS frontend.
- Live project link: brainsparkz.onrender.com

AWS Cloud Security Hardening
Individual

- Analysed CloudWatch logs to detect deviating access patterns and tightened IAM policies.
- Configured WAF rules and dashboards to monitor attack surface changes.

Digital Forensics Incident Reconstruction
Autopsy · FTK Imager · Sleuth Kit

- Performed forensic HDD analysis and timeline reconstruction to identify multi-stage attacks.
- Extracted artefacts and produced formal forensic reports for incident response workflows.

SIEM Threat Detection with QRadar
IBM QRadar SIEM

- Developed correlation and anomaly detection rules and performed multi-source log analysis.

CERTIFICATIONS

- AWS Cloud Practitioner
- IBM QRadar SIEM Foundation
- IBM Enterprise Security in Practice
- Data Visualisation: Empowering Business with Effective Insights
- Vulnerability Assessment & Penetration Testing (Quick Heal)
- Microsoft Cloud Security Fundamentals

ACHIEVEMENTS & ACTIVITIES

- Led security design and implementation for Brainsparkz platform.
- Completed hands-on SIEM, VAPT, and DFIR labs at Try Hack Me and Quick Heal Academy.
- Participated in internal cybersecurity workshops and CTF competitions.

PERSONAL STRENGTHS

- Analytical thinking and pattern recognition
- Strong documentation and technical reporting
- Team leadership and project coordination
- Self-driven research curiosity
